PROFILE

Multidisciplinary brand designer and creative project manager with 13+ years of experience across AI, energy, aviation, and UAE government and corporate communication. Delivers end-to-end creative work, from branding, campaigns, social media, and events to corporate presentations, motion graphics, animation, videography, and video editing.

Manages multiple projects in parallel from brief to final delivery. Reduced dependency on external agencies by 80% by building in-house production and AI-powered workflows that speed up concepting, design, and editing. Delivers around 9 major integrated campaigns a year alongside full creative coverage of internal and international events.
